

Con Terence P. Watts

Nel 2001 stavo vagando per internet alla ricerca di qualche scuola di ipnosi seria e professionale, cioe' adatta a me. Alla fine ho trovato e scelto come docente Terence Watts, direttore dell'Essex Institute of Clinical Hypnosis, che a quel tempo aveva la sede a Leigh on Sea, Essex, UK (ora si trova a Southend on Sea, sempre in Essex). Terence Watts e' un eccellente maestro, un personaggio straordinario (piu' unico che raro), e la sua mente creativa, illuminata, e geniale ha anche scritto diversi libri importanti sull'ipnoterapia. Lui non solo mi ha formato nell'ipnotismo professionale, ma con il suo esempio mi ha anche insegnato a comportarmi con umanita' e umilta'. Questi sono due concetti che stanno alla base anche della APHP (Association for Professional Hypnosis and Psychotherapy), a cui la scuola di Terence Watts fa riferimento; infatti nel logo APHP si leggono le parole "Compassion and Humility".

With Terence P. Watts

In 2001 I was surfing online because I wanted to be trained within a serious and professional school of hypnosis. Well, I have found a teacher very suitable for me. He is Terence P. Watts, principal of the Essex Institute of Clinical Hypnosis (EICH), which was located (in that time) in Leigh on Sea, Essex, UK (now it is in Southend on Sea, Essex). Terence Watts is an excellent teacher, an extraordinary man (more unique than rare), and his creative, brilliant, and ingenious mind has also written several important books about hypnotherapy. He not only formed me in professional hypnotism, but with his example he also taught me to behave with compassion and humility. These two concepts can be also found in the APHP logo (the Association for Professional Hypnosis and Psychotherapy), which the EICH refers to.
